Prepared by Ellen Parker	Aircraft Make / Model	Float / Ski Model All Wipline Amphibious floats	1 1
FAA Reviewed <input checked="" type="checkbox"/>	Title Updated Lake and Air Gear Advisory		

**ALL INFORMATION IN THIS SERVICE DOCUMENT BASED ON FAA APPROVED DATA**

**SERVICE LETTER: 1**

**EFFECTIVITY:** All aircraft equipped with the Lake and Air Landing Gear Position Advisory System installed in accordance with STC SA39CH.

**COMPLIANCE:** Compliance is mandatory. Owner/Operators must contact Lake and Air with their float serial numbers, aircraft make and model, and aircraft registration number and request the new placard and the Lake and Air Gear Advisory Flight Manual Supplement be mailed.

**BACKGROUND INFORMATION:** There have been reported incidents of pilots pulling the gear advisory circuit breaker when the system was operating normally. **This renders the advisory system inoperable and does not provide critical gear position advisories to the pilot. Landing with the gear in the wrong position can cause serious injury or death!**

**METHOD OF COMPLIANCE:** Install new placard p/n 1003418 and get the Lake and Air Gear Advisory Flight Manual Supplement revised 1-27-09 to be kept in the aircraft.

**WARRANTY:** This placard and supplement are free of charge to Gear Advisory owners.
